

Recycling Information

As well as participating in recycling projects to raise money for our school we also participate in several for the simple reason of recycling for environmental purposes or helping others in need. We are always searching for economical, environmentally friendly ways to do our part to save our planet and the lives of those among us.

Recycling Awareness

Bins are located in the school cafeteria and the church Social Hall for the following items:

By turning in the pop top tabs from aluminum beverage cans you can help the families of sick children who turn to the Ronald McDonald House in their time of need. The program creates awareness of and community support for the House, raises funds to help families facing a medical crisis, and promotes recycling at the same time.

For more information on the Ronald McDonald House of Central Florida and this program please visit their website at www.rmhorlando.com.

We will now be accepting plastic shopping bags for recycling. This recycling effort does not bring money or materials of any sort to our school, but simply helps to promote the important message of recycling in our students and their families. By sending in your plastic shopping bags you are doing your part to ensure that these bags are sent to a recycling center rather than ending up in our local waste sights.

We want to thank everyone for your commitment to STA & our efforts!!
